Optimum Technology Releases SWIFTSHARE™ for the State of Ohio

November 8, 2021 - Powell, OH - Optimum Technology, Inc., announces the release of **SWIFTSHARE**, a Law Enforcement Information Sharing System.

Optimum Technology, a Powell-based software company, has developed and released **SWIFTSHARE**, a Law Enforcement Information Sharing System. **SWIFTSHARE** follows the latest FBI specifications to accept and retrieve crime data from different law enforcement agencies' Records Management Systems (RMS). The system is hosted by the State of Ohio and data is made accessible and shareable to all 900 law enforcement agencies in Ohio to help keep communities safe.

SWIFTSHARE works in conjunction with **SWIFTCONNECT™**, a powerful crime data search engine Optimum Technology also developed and is hosted by the State of Ohio.

"**SWIFTSHARE** is a next generation information sharing solution for law enforcement. The State of Ohio continues to lead the way in deploying technology solutions that help keep all communities safe," Josh Davda, President and CEO, Optimum Technology said.

About Optimum Technology:

Optimum Technology, Inc. is a certified Minority Business Enterprise founded in 1984 in Columbus, Ohio and is a national leader in software solutions for State and local government, having served public safety and justice agencies in all 50 states, District of Columbia, Guam and the U.S. Virgin Islands.

Optimum's mission is to work in partnership with state and local government agencies to provide software that is current, relevant, and focused on keeping communities safe.
