Optimum Technology's Nicole Jackson Selected as One of Forty Americans to Participate in the European Union Artificial Intelligence Act Meetings

January 6, 2025 - Powell, OH - Optimum Technology, Inc. is proud to share that its AI Practice, Principal Consultant Nicole Jackson has been selected to participate in the European Union Artificial Intelligence Act Code to Practice Plenary as an individual contributor.

The first General-Purpose AI Code of Practice, which can be found at <https://digital-strategy.ec.europa.eu/en/policies/ai-code-practice>, will outline rules for providers of general-purpose AI models, including those with potential systemic risks. The European AI Office is leading this initiative, working with nearly 1,000 stakeholders, including independent experts, EU member states, and both European and international observers.

Nicole Jackson shared her enthusiasm, "Contributing to this important project will deepen our expertise and strengthen our position within the AI industry in the U.S. It's clear that the EU's approach to privacy and trustworthy AI systems often sets the tone for global standards. This opportunity will further reinforce our leadership in shaping the future of AI"

About Optimum Technology:

Optimum Technology, Inc. was founded in 1984 in Columbus, OH and is a national leader in software solutions for state and local government, having served public safety and justice agencies in all 50 states, District of Columbia, Guam, Puerto Rico and the US Virgin Islands. Optimum's mission is to work in partnership with state and local government to provide technology that is current, relevant, and focused on keeping communities safe.
